Key Programs & Services for Employers

Employment Partnership Development

- Employer partnerships teams distribute their time between private sector (from small businesses to large corporations) and government (municipal, provincial, and federal) employers
- Focused on developing relationships with employers and learning how LiveWorkPlay can help meet their human resources needs by connecting them to the right candidate with an intellectual disability and/or autism

Workplace Inclusion Specialists

- Focus on employer readiness
- Work with a business or government department to understand and implement workplace improvements related to accommodations and inclusion
- Aim to ensure that when a new employee with an intellectual disability and/or autism starts work, the employer – supervisors, co-workers, and others – are ready to welcome, support, include, and benefit from the new employee without need of significant assistance or intervention from LiveWorkPlay
- Ready to help with any challenges that might arise, but when we are working effectively with an employer, they have confidence in their own ability to support an employee referred by LiveWorkPlay
