HIGH TECH GENESIS INC.

Position: Cloud Native Software Developer-Java/Go

ID # 4NR0311CNSDJ/G

Location: Ottawa, Ontario Canada

Term: Permanent

Salary Scale: \$80,000-\$120,000

WOW FACTOR!

We are looking for a developer who can help build our Unified Cloud Security platform. This is chance to work with an industry-leading cyber security products team. We're at the forefront of Docker and Kubernetes security innovations. Our team values passion for technology and for learning.

Must have:

- 4+ years of software application development experience.
- Proficient with Aws Cloud Native application development including AWS Lambda, API Gateway, RDS, DynamoDB
- Skilled in API Design/Development.
- Aws, Azure or GCP public cloud service providers infrastructure exposure.
- Competent in one or more programming language(s): Java, Go (Golang), Python, Node, C+
- Knowledge of cloud platforms and technologies including Aws, EKS, Google
- Cloud Platform such as Cloud Functions and Azure.
- Experience working with Kubernetes in a cloud environment.
- Exposure to and/or experience with Serverless applications.

Nice to have:

- An understanding of software design patterns, pipeline automation and software testing principles and methodologies.
- Familiar with designing, coding, deploying and debugging microservices applications.

- Strong Scripting and automation skills.
- Passionate about solving problems in code!
- Is proactive and easily trouble shoots and resolves issues relating to customer service, product, process and tools.
- Web Application Security experience is an asset!
